## **OUR START**

Founded in 2010, Windowsill Smart (Pty) Ltd was started by Harry van Lieshout. With over 50 years of experience in the construction industry, Harry saw a need to create pre cast windowsills to replace the conventional brick on edge. To date Windowsill Smart had delivered over 35 000 windowsills to its client. David van Lieshout joined Windowsill Smart in 2014 to help father Harry as the demand for windowsills grew past his expectation. Together they have grown the business by 700% in the last 3 years. Their product range grew quickly and in April 2017 they refreshed their brand and started trading as Smartcrete.
